### Marshall Medical Centers

100-plus physicians, 25 specialties, 7 outpatient centers, two hospitals and a staff of more than 1200 healthcare professionals. The tradition of providing quality care in a convenient, close to home setting began for Marshall Medical Centers in 1956. More than 50 years later, we continue to meet the healthcare needs and improve the quality of life in Marshall County and the surrounding area.

We hear it time and again - things like "Marshall Medical sure offers a wide range of services." Or, "I didn't know Marshall Medical did that new procedure."

The fact is, Marshall Medical stays at the forefront of healthcare in both quantity and quality. We attract good doctors and other professionals, thanks in part to the excellent quality of life here. And we continually invest in the latest technology, giving our physicians and their patients every advantage when it comes to diagnosis and treatment. From routine check-ups to specialized care, the tradition of delivering quality healthcare is, and has always been, a tradition at Marshall Medical.

The Foundation for Marshall Medical Centers was established in 2007 as the fundraising arm of Marshall Medical Centers and is separately incorporated as a non-profit tax-exempt foundation. The Foundation is led by a board of directors comprised of involved Marshall County citizens. These citizens are dedicated to enhancing the quality of life in our community by supporting the mission of the Foundation.

*All donations are tax deductible and will be acknowledged with a receipt from The Foundation.*

*The Foundation for Marshall Medical Centers is a public, not-for-profit corporation. Employer No. 26-0446391 is recognized as being exempt from federal income tax under section 501(c)(3).*

## SUPPORTING THE MISSION

The Foundation for Marshall Medical Centers works to develop the relationships and financial resources necessary to support the Medical Centers and its mission of improving the health and well-being of our patients and their families.

Contributions of any amount are gratefully accepted and may be unrestricted gifts or designated for a specific purpose. Contributions to The Foundation are tax deductible, with 100% of every gift benefitting Marshall Medical Centers and our community.

We invite you to partner with us by investing in the health and well-being of our community – for today as well as for tomorrow.

### Our Mission Is...

**To Exceed Healthcare Expectations...** Meeting the needs of a growing community requires significant financial resources. As a community-owned, not-for-profit organization, Marshall Medical Centers' mission is providing quality healthcare services to all citizens in its service area.

**To Build Relationships...** A key objective of The Foundation is cultivating relationships within our community to build a trusted healthcare network and make meaningful contributions to the place we call home.

**To Provide Leading-Edge Technology...** Philanthropic contributions play an important role in the Medical Centers retaining its position as early adopters of new technology in the form of equipment and facility enhancements.

**To Ensure that People Are the Cornerstone...** Ensuring a sufficient supply of highly-trained and compassionate healthcare professionals is the cornerstone of an effective healthcare organization.

Through local fundraising efforts, The Foundation plays an important role in helping your community-owned not-for-profit hospital meet capital needs that keep Marshall Health System on the cutting edge of caring for our community.

**Patient Support Programs** provide much needed assistance for under or uninsured patients such as the Mammography Assistance Program and programs for the Marshall Cancer Care Center.

**Community Outreach** including auxiliary support and education for local schools and educators, youth volunteer programs and INSPIRE: A Youth Art Contest.

**Scholarship Programs** promote higher education for students who are interested in pursuing a career in a healthcare profession and employees who want to further their education to benefit the patients they serve.
